

The Pawn Game

Aim:

- First player to get ONE pawn to the other side wins!

You win the game if:

- You are the first to capture all your opponent's pawns.
- You are the first to reach the last rank (i.e. your opponent's first rank) with one of your pawns
- It is your opponent's turn to move but all her pawns are blocked and do not have any moves, while you yourself can make at least one move.

The game is a draw if:

- both sides pawns are blocked up so that neither side can make any moves.
